## Modern Life

*Libertsueg, one of Mongolia's top models*

**Someone should build a place like Disneyland: Are Mongolians drowning in bars?**

In 1992 author Nick Middleton published a book called *The Last Disco in Outer Mongolia*. As is implied in the title, along with some insightful observations about Mongolia before the Russians pulled out, he also bemoans the paucity of bars and discos in the country.

**Young Mongolian entrepreneurs lead the business revolution**

Under communism, L. Bayasgalan studied fungus. Under capitalism, she's used her scientific knowledge to build her own organic vegetable business.

**Meat, milk and Mongolia.**

A stroll down any Mongolian residential street is usually the first introduction to a visitor of the savoury odours of the traditional meals of this country.

**Money may be tight, but Mongolians are still going online, boosting up and sending emails.**

Inside Mongolia's former Construction College, a slab of brightly painted concrete overlooking Ulaanbaatar, murals on the peeling walls still depict beefy workers engaged in heroic labour. The stern visages of Marx, Engels and Lenin loom above the central staircase.

**Depositors' blues: Banks fail to reform and become solvent**

Mongolia is currently in the clutches of a full-blown banking crisis. On the surface life appears normal on the streets of the capital. Workers busily renovate apartments to open as shops and restaurants, while other workers march to the many building sites throughout Ulaanbaatar.

**Mongolia's top fashion designer, Soltyelmaa, gives Ger a quick lesson on Mongolian clothing**

Last year's fashion runways were dominated by one influence: Mongolian traditional design.

**Girl power in Mongolia: What is the status of gender after nine years of transition?**

**Religion in modern Mongolia: has freedom brought stronger religious beliefs?**

In Mongolia already ten years has passed since Mongolians were allowed to practice their beliefs freely. The issue of religion, which was a closed topic for 70 years, came into the open, with many Buddhist monasteries that were closed during the first years of the communist revolution.
